

Madame Chairman and members of the
Committee.

EXHIBIT 28
DATE 1-18-07

McFarlene

Hi my name is Darlene. I live in a group home in Ronan with seven other individuals.

The group home that I live at has just recently became an intense group home so now there are more staff to help with my wants and needs. We have more outings, more one on one time, and they help me with my walking program and my range of motions.

I have a seizure disorder. At times my seizures are pretty bad. My staff helps to make sure that I am safe. Sometimes my seizures make me really tired, so my staff will help me ~~to~~ lie down or relax in the recliner.

It makes me sad when good staff quit for a better paying job. Then it takes awhile to train a new staff to all ~~of~~ my wants and needs.

I really like all my staff they are good to me.
